THE CITY DEBT.

We invite attention to a plain statement in another column respecting the city debt. It is from the pen of one of the Funded Debt Commissioners. This Commission was established in 1872. It has served the city ever since without fee or reward. All it does or has done is for the benefit of the city. A law was passed authorizing a tax to create a fund for the use of the Commission in buying up city bonds and coupons at a low rate. The debt it takes up it holds in trust, draws the interest upon it, and uses the same again for further reduction of the debt. It was a good scheme, has worked well, and should not have fallen into disuse, as it has, for the past three or four years. Judge Beatty's communication clearly states the case, and shows what the Commission has accomplished. Strange as it may seem, some people "got it into their heads" that the Commission was working for itself, and hence began a senseless war upon it. But it never has, nor can it have, any individual interest in the matter. It is a trustee for the city. It has accomplished a great deal for the city. So much of the debt as has been wiped out has been done through its exertions. It should be permitted to continue its labors. The adoption of the proposed new charter for the city will destroy this Commission, and that is additional reason why the charter bill should not prevail. As an evidence of the popular misconception concerning the Commission, the single instance will suffice. A year or two ago, when suits were brought upon coupons by the holders thereof to prevent the statute of limitations from running against them, the Funded Debt Commission also brought suit or intervened in that pending, in order, if the coupon holders prevailed, to secure for the city the same benefits concerning the coupons held by the Commission for the protection it asks for State property and the equipment necessary to enable it to do its work according to the best standards of university excellence.

growth, and the resources of the country generally, that the stranger at a glance may see what we produce, and note the section in which produced; in short, a practical museum, as well as one for scholarly research, and one to be amplified by collections of curios, historic relics, works of art and skill, mechanical devices, etc. In addition, and that which precedes all else, and is now being carried on, the institution will instruct and entertain the people by securing courses of lectures on practical topics, and by encouraging at its meetings interchange of thought among the members on interesting subjects calculated to enlarge public knowledge, and especially concerning the State and its resources. For these ends the necessity for a building with suitable chambers and a spacious hall, and erected with a view to the greatest safety of the museum collection, is immediate. A sum of money has already been secured as a nucleus, and to augment this efforts in aid of a Loan Exhibition are now being made. It is to be hoped that they will meet with generous responses. The Loan Exhibition is feasible according to the judgment of ladies who have taken charge of that branch of the work; the museum scheme is not only feasible, but a needed one. The Capital City should possess such an attraction.

In five years' time it can be made a striking feature among our local institutions, and will command the services of the Texas Pacific land grants.

The Senate then went into executive session, and when the doors were reopened adjourned.

HOUSE OF REPRESENTATIVES.

Destitute Pacific Coasters—Washington's Birthday—The War in the Soudan.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

DOMESTIC NEWS.

United States Senate.

Washington, February 23d.—Miller of California presented a petition received by telegraph from the annual encampment of the Grand Army of the Republic now in session at St. Louis, Missouri, praying for the immediate passage by Congress of the bill to place General Grant in the Soudan.

The petition was, under the rules, laid on the table, the Senate having already, on the part, passed the bill to carry out the provisions of the bill.

On motion of Payson the Senate amendment was concurred in, the House bill fortifying the Texas Pacific land grants.

The Senate then resumed the bill of appropriation, and passed it.

Several amendments were offered, and an extended debate ensued, at the close of which the bill was read a third time and passed.

It now goes to the House for concurrence or non-concurrence in the Senate amendment.

Mitchell said that he would to-morrow call in the private pension bills on the date when the bill was resumed.

The Senate then went into executive session, and when the doors were reopened adjourned.

HOUSE OF REPRESENTATIVES.

Washington, February 23d.—Randall reported, standing, the Committee of the Whole, Bland reserving all points of order.

Lefevere offered a resolution rectifying that Germany is discriminating against imported German articles, and instructing the Committee on Foreign Affairs to inquire into and report whether the interests of the United States do not require the option of like discrimination on articles imported from the German Empire. Referred.

Payson moved, and it was agreed to, regarding the Committee Indian Affairs to continue, during the recess of Congress, its investigation regarding the importation of contract labor.

The States were then called for the introduction of the Bland bill, and it was agreed to, and it was introduced by Perkins to open up the Oklahoma lands to homestead settlement.

The mail and passenger steamer Princess Beatrice, bound from San Francisco to Sydney, has been delayed since Saturday.

Telex of Mrs. James Russell Lowell were interred at Kensal Green Cemetery, London, yesterday. The funeral was strictly private.

Mounted Broadways—Contest—Auction Sales of Opera Seats.

SAN FRANCISCO, February 23d.—The mounted broadways contested in Central Park to-day between Dunn C. Ross, the famous all-around athlete, and Sergeant Owen Davis, of the Troop A, United States Cavalry, for a victory for Ross by one point out of two.

At the auction sale of seats for the opera season to-day all were sold. Those sold are for the entire season so that people desiring to see a single performance cannot get except by buying a season ticket which will undoubtedly be exacted from them by ticket speculators, who secured probably a hundred seats. The gross receipts for previous years amount to \$12,711.75—said to be the largest sum ever received for previous seasons at a single sale.

Review of Troops—Enforced Pedestrianism—Whale in the Bay—Latti Called Upon.

SAN FRANCISCO, February 23d.—The review of the Second Brigade at the Presidio by the Governor and State Guard, and United States troops, was witnessed by from 10,000 to 12,000 people, nine-tenths of whom went out to the Presidio in the Union-street cars. About 1,000 persons came in, and all the people had to walk to the theatre, a distance of about three miles and a half from the corner of Kearny and Market streets.

The whale, which swam in to the bay to-day, he swam clear around Alcatraz and then approached close to the sea-wall.

Governor Stanwood and staff, in full uniform, called upon Patti in her rooms at the Palace this afternoon.

A Woman Dies—Herself in a Well—Leg Crushed.

Stockton, February 23d.—Mrs. A. R. Andrews, wife of the man who was killed a few days ago by being thrown from a wagon, at Lodi, committed suicide last Saturday by drowning herself in a well.

A man named Daniel Bigelow had his right leg crushed at Burnett's station by a team going to Oakdale this evening. Anputation will undoubtedly be necessary.

Two Children Burned to Death.

Peru, February 23d.—The burning house at Waterman & Porter's mine was burned during the night, and two Chinese cooks were found burned beyond recognition.

Man's Head Found in a Creek.

YERCA, February 23d.—A man's head was found in Willow creek, about fifteen miles north of here, evidently washed down by the late freshets from its burial place. The body was found by a man named Constable, missing since last May. There is suspicion that he was murdered and buried at some point six or seven miles above where the head was found. The coroner is now investigating the case.

He laid his bones on Willow creek for Big Shasta who has seen alive.

Bank Changes—The Military Bill—The Richmond Works to Close.

BURKE, February 23d.—Paxton & Co.'s bank of the town has been closed by Mayor of San Francisco, and D. M. Foy, B. Gilman, R. E. Morrison and W. E. Griffin, of Burke, all of whom are directors of the new concern. The name is changed to the Burke County Bank, capitalized \$100,000.

The new corporation elected the following officers this morning: President, D. M. Foy; Vice-President, R. K. Morrison; Secretary, R. E. Morrison; Asst. Asst. Cashier, W. E. Griffin; Attorney, A. E. Cheney; Wells, Fargo & Co.'s office will be moved into the new building. The bank was originally owned by Messrs. Paxton, Foy, Gilman and Burke.

A meeting was called by members of the military company and others last night at the Opera-house to hear Senator M. D. Foley explain the military bill just introduced by him. Many members of the Miners' Union were present and took part in the meeting. The Miners' Union is strongly opposed to the bill, claiming that it is gotten up in the interest of the mining companies.

The meeting passed a resolution asking the representatives from Eureka county in the State Legislature to use all proper means to secure the veto of the Governor. The meeting was highly enthusiastic, the miners showing much feeling in the matter. The chief objection to the bill was that the miners of the state were to be taxed at a rate of one cent per ton, while the miners of the state were to be taxed at a rate of one cent per ton.

A Albany special says: "A storm is gathering about Manning's head which promises to make his appointment to the post of Commissioner of Education a difficult one." It is to be hoped that the miners of the state will be successful in their efforts.

The miners are gathering in force, and a lively time is looked for. The veto of the bill utterly destroys Adams' chance for future political preferment, and fate would have it so.

It is looked upon by many as simply a trap arranged by his political enemies to put him in a box.

Judicial authority, it will doubtless have the effect of cooling the ardor of those overzealous and arrogant Indian officials.

Guilty of Perjury.

SANTA FE, February 23d.—L. Remuzen, a Frenchmen, Postmaster at Espanola, was found guilty of perjury in the District Court on noon yesterday, and he incurred the punishment of two years in the Penitentiary. The case grows out of the breach of promise suit tried at the last term in which Zoraida Gutierrez, a young woman of a small village, and Arthur Remuzen was formerly a priest, appeared as plaintiff and secured judgment for \$5,000 damages. In the case the woman swore that Remuzen promised to marry her, was a brother of her own, and that he had frequently visited her father's house, where she resided, between the years 1875 and 1882. Remuzen, on the other hand, swore that he had not visited the father's house between the years 1875 and 1882, and his indictment for perjury followed.
